(a) *Textile wearing apparel and certain piece goods*. In connection with the sale, in or affecting commerce, of textile wearing apparel and certain piece goods, it is an unfair or deceptive act or practice for a manufacturer or importer:

(1) To fail to disclose to a purchaser, prior to sale, instructions which prescribe a regular care procedure necessary for the ordinary use and enjoyment of the product;

(2) To fail to warn a purchaser, prior to sale, when the product cannot be cleaned by any cleaning procedure, without being harmed;

(3) To fail to warn a purchaser, prior to sale, when any part of the prescribed regular care procedure, which a consumer or professional cleaner could reasonably be expected to use, would harm the product or others being cleaned with it;

(4) To fail to provide regular care instructions and warnings, except as to piece goods, in a form that can be referred to by the consumer throughout the useful life of the product;

(5) To fail to possess, prior to sale, a reasonable basis for all regular care information disclosed to the purchaser.

§ 423.6 Textile wearing apparel.

This section applies to textile wearing apparel.

(a) Manufacturers and importers must attach care labels so that they can be seen or easily found when the product is offered for sale to consumers. If the product is packaged, displayed, or folded so that customers cannot see or easily find the label, the care information must also appear on the outside of the package or on a hang tag fastened to the product.

(b) Care labels must state what regular care is needed for the ordinary use of the product. In general, labels for textile wearing apparel must have either a washing instruction or a drycleaning instruction. If a washing instruction is included, it must comply with the requirements set forth in paragraph (b)(1) of this section. If a drycleaning instruction is included, it must comply with the requirements set forth in paragraph (b)(2) of this section. If either washing or drycleaning can be used on the product, the label need have only one of these instructions. If the product cannot be cleaned by any available cleaning method without being harmed, the label must so state. [For example, if a product would be harmed both by washing and by drycleaning, the label might say "Do not wash—do not dryclean," or "Cannot be successfully cleaned."] The instructions for washing and drycleaning are as follows:

(1) Washing, drying, ironing, bleaching and warning instructions must follow these requirements:

(i) *Washing.* The label must state whether the product should be washed by hand or machine. The label must

also state a water temperature that may be used. However, if the regular use of hot water will not harm the product, the label need not mention any water temperature. [For example, "Machine wash" means hot, warm or cold water can be used.]

(ii) *Drying.* The label must state whether the product should be dried by machine or by some other method. If machine drying is called for, the label must also state a drying temperature that may be used. However, if the regular use of a high temperature will not harm the product, the label need not mention any drying temperature. [For example, "Tumble dry" means that a high, medium, or low temperature setting can be used.]

(iii) *Ironing.* Ironing must be mentioned on a label only if it will be needed on a regular basis to preserve the appearance of the product, or if it is required under paragraph (b)(1)(v) of this section, *Warnings*. If ironing is mentioned, the label must also state an ironing temperature that may be used. However, if the regular use of a hot iron will not harm the product, the label need not mention any ironing temperature.

(iv) *Bleaching.* (A) If all commercially available bleaches can safely be used on a regular basis, the label need not mention bleaching.

(B) If all commercially available bleaches would harm the product when used on a regular basis, the label must say "No bleach" or "Do not bleach."

(C) If regular use of chlorine bleach would harm the product, but regular use of a non-chlorine bleach would not, the label must say "Only non-chlorine bleach, when needed."

(v) *Warnings.* (A) If there is any part of the prescribed washing procedure which consumers can reasonably be expected to use that would harm the product or others being washed with it in one or more washings, the label must contain a warning to this effect. The warning must use words "Do not," "No," "Only," or some other clear wording. [For example, if a shirt is not colorfast, its label should state "Wash with like colors" or "Wash separately." If a pair of pants will be harmed by ironing, its label should state "Do not iron."]
